Williamson

EQUINE PHOTOGRAPHER

Quality Equine Portraits

# Hello and Welcome

Welcome to my brochure. My name is Stephanie Williamson I have been a professional photographer for over 18 years and have always been a horse lover. Having five children and an allergic husband meant I had to hang up my boots for a few years. But thankfully my son and daughter took a keen interest during lockdown and I was able to combine two passions.

I love nothing more than creating a memorable Equine portrait. I love getting to know new horses and people and love coming up with ideas to capture personalities.

Whether you would like a serious "Fine Art" portrait or a fun adventurous image. I can help every step of the way.

So have a flick through my brochure and let me help your ideas come to life.

## *Where it all starts.....*

Before I even lift a camera I want to know all about your horse (or horses if you are a collector like me). From this, we can come up with the right type of portrait to suit both you and your horse.

We will decide:

- \* The Style of the shoot you want
- \* The best location
- \* The best type of shoot to portray you and your horse's personality

Most importantly I will help you decide exactly the type of portrait you want to hang on your wall. You will be amazed at the ideas we can come up with together

# What type of Shoot to choose.....

I am based in Newcastle County Down which is ideal for Equine shoots. We have the choice of the beach, forest or even a trip to the River.

Here are a few examples of images taken in Newcastle.

If you would like me to travel to your yard or you have a location in mind, that is no problem.

My free 'no obligation' consultation means we will get the opportunity to talk through your ideas.

# Pony Love.....

Do you have a pony mad child?

I love nothing more than getting creative with children. They have the best ideas.....

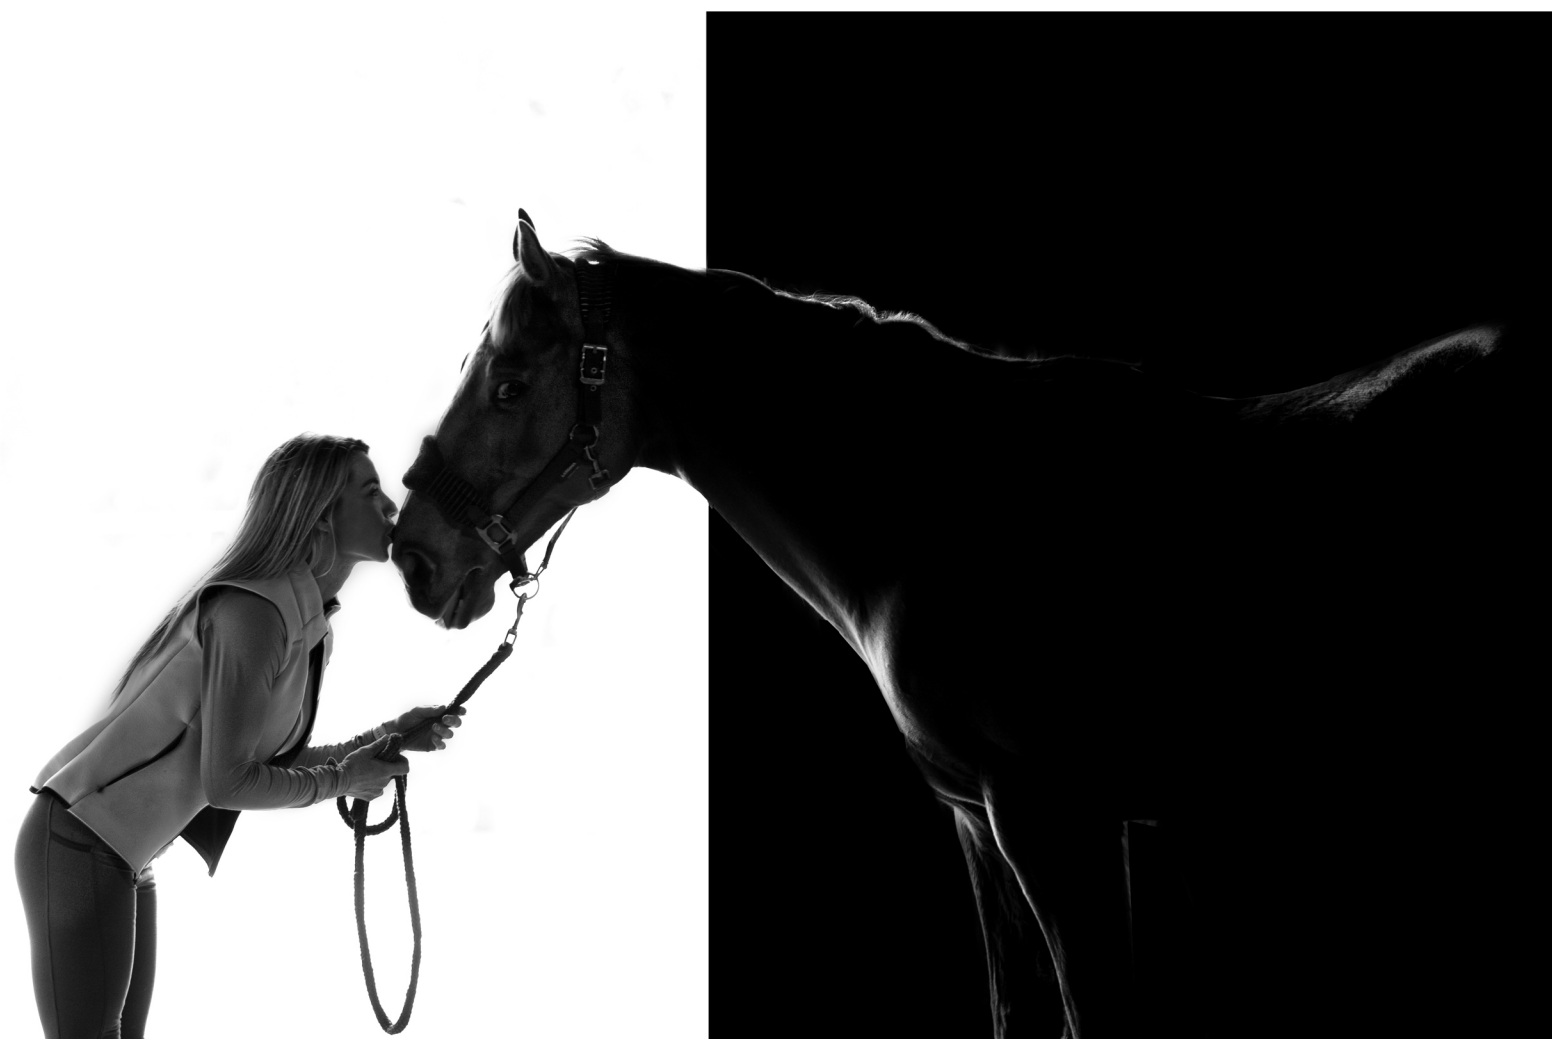

# Natural Fun or Creative

Before your session we will have good chat about what you want, Natural, fun or something a little different?

You may even want to mix it up and try all three. We can show you samples and help you find your style.

A photograph of a brown horse with a white blaze on its face, running through water under a stone archway. The horse is splashing water, and its reflection is visible in the water. The background is a stone wall with some greenery.

# Packages
