EQUINE PHOTOGRAPHER

Exclusive Equine Portraits

Hello and Welcome

Welcome to my brochure. My name is Stephanie Williamson I have been a professional photographer for over 18 years and have always been a horse lover. Having five children and an allergic husband meant I had to hang up my boots for a few years. But thankfully my son and daughter took a keen interest during lockdown and I was able to combine two passions.

I love nothing more than creating a memorable Equine portrait. I love getting to know new horses and people and love coming up with ideas to capture personalities.

Whether you would like a serious "Fine Art" portrait or a fun adventurous image. I can help every step of the way.

Where it all starts.....

Before I even lift a camera I want to know all about your horse (or horses if you are a collector like me). From this, we can come up with the right type of portrait to suit both you and your horse.

We will decide:

- * The Style of the shoot you want
- * The best location
- * The best type of shoot to portray you and your horse's personality

Most importantly I will help you decide exactly the type of portrait you want to hang on your wall. You will be amazed at the ideas we can come up with together

What type of Shoot to choose.....

I am based in Newcastle County Down which is ideal for Equine shoots. We have the choice of the beach, forest or even a trip to the River.

Here are a few examples of images taken in Newcastle.

If you would like me to travel to your yard or you have a location in mind, that is no problem.

My free 'no obligation' consultation means we will get the opportunity to talk through your ideas.

Pony Love.....

Do you have a pony mad child?

I love nothing more than getting creative with children. They have the best ideas.....

Natural Fun or Creative

Before your session we will have good chat about what you want, Natural, fun or something a little different?

You may even want to mix it up and try all three. We can show you samples and help you find your style.

Our Products

All our images are mounted and "Frame ready".

Our frames are custom made and designed to suit your home and image.

We have a selection of mounts and frames and you will be guaranteed the best products.

Before we order your frame we can provide you with a mock up for approval.

Or maybe you would like a selection of images framed? We can help every step of the way.
